Hamilton Almeida Junior

Technical Writer & Solution Designer | Remote Technical Support - Systems & Operations Documentation - Process Monitoring
Curitiba - PR | www.linkedin.com/in/hamthet | juniorahamilton@gmail.com | (41) 99552-0083

Professional Summary

Neurodivergent professional (Autistic / Gifted) with 8 years of experience in technical coordination, solution design and operations management. My edge is depth: obsessive attention to detail, systemic thinking and the ability to translate complex requirements into functional solutions. Focused on remote and asynchronous operations — value over volume.

Competencies

• **Autonomy**: Independent operation with full self-management of tasks and deliverables in remote environments.
• **Documentation**: Creation and maintenance of structured knowledge bases, manuals and technical processes.
• **Asynchronous Communication**: Excellence in written exchanges via chat and text, reducing the need for meetings and calls.
• **Troubleshooting**: Remote diagnosis of failures in technical and digital systems with focus on precision.
• **Adaptability**: Fluid transition between technical support, visual design and technical writing as needed.

Professional Experience

Customer Support Representative | bet365 (via Services Tech) (2025 – Present)
• **Technical support:** Diagnosis and resolution of incidents via chat in a high-volume environment.
• **Asynchronous communication:** Clear and concise service delivery focused on user satisfaction and retention.
• **Safeguarding:** Handling sensitive situations (responsible gambling and emotional distress) with strict adherence to protocols and human impact awareness.

Digital Strategy & Solutions Designer | Freelancer (2017 – Present)
• **Digital Presence:** Developing landing pages and managing Google Ads and marketplace campaigns for lead generation.
• **Visual Identity:** Designing and standardizing brands to ensure a consistent and professional digital presence.
• **Conversion Design:** Creating ad assets and marketing materials with a focus on performance and data analysis.

Service Manager & Technical Support | Grupos Sentinela (2017 – 2025)
• **Technical Writing:** Development of manuals, reports and visual technical documentation for security systems.
• **Operations management:** Coordination of over 1,500 service orders with resource optimization.
• **N2 Support:** Advanced fault diagnosis in automation systems, cameras and alarms.

Education

Bachelor's Degree in Biological Sciences | Universidade Federal do Paraná (*UFPR*) | Curitiba, Brasil (2017 – Present)
• **Analytical Profile:** Emphasis in Physiology, Cognitive Neuroscience and Ethology.
• **Scientific research** in Cytogenetics (chromosomal analysis).
• **Languages:** Portuguese (Native) | Advanced English (C1) — fluency in reading and technical writing for international support environments.

Technical Skills

• **Design & Interfaces:** Figma, Adobe Photoshop, Illustrator, After Effects.
• **Writing & Documentation:** UX Writing, Information Architecture, technical writing, manuals and reports.
• **Technology & Infrastructure:** Hardware/software diagnostics, automation, security systems (alarms, cameras, electric fencing).
• **Support Tools:** Chat and ticketing platforms for remote asynchronous support.
• **Data Analysis:** Scientific methodology, systemic thinking, requirements and project management.
